

November 13, 1934

Dr. Alfred Rehder
The Arnold Arboretum
Jamaica Plain, Mass.

Dear Dr. Rehder:

This will acknowledge with thanks, the safe arrival of the box of herbarium material which you sent us on November 8th. In checking through the collection I found many specimens which will be of value to us.

We shall be glad to send you specimens of recently introduced plants in exchange. As I mentioned before, however, we are not prepared to do this at the present time.

Yours sincerely,

E. L. Kammerer
