Dr. George S. Avery, Jr.
Brooklyn Botanic Garden
1000 Washington Avenue
Brooklyn 25, New York

Dear Dr. Avery:

I am returning herewith the condensed version of my "Neglected Plants for American Gardens" which you plan to use in the winter issue of Plants and Gardens. The condensation is satisfactory in every way and I have no criticisms to offer. The few changes I have made are of minor importance.

We instructed our printer to forward the cuts directly to you, and I am glad to know they have arrived.

Yours sincerely,

E. L. Kammerer
