Mrs. Joy Morton
c/o The American Express
Rome, Italy

Dear Mrs. Morton:

Inclosed please find outs of the new Ford for 1938. As I presume you would like to order the car so that it will be delivered for Mrs. Barnet's use when she comes out to open the house in the spring, I think it advisable for you to choose a color now so that the order may be placed. They have no color chart that gives the exact colors but I have tried to indicate on the inclosed sheet some of the colors that are available. Will you also tell me the type of upholstery you want, as it should be indicated on the order. These new Fords are very good looking and are a foot longer in body length than the current year's model. I am quite sure you will be well pleased with the car when you get it.

We received a telegram from Mr. van Gemert saying that he will arrive in Lisle at 2:15 today. We are all very anxious to see him. We are inclosing copies of the last letters received from him.

Sincerely,

CEC:ER
Inc.

P.S. Trom made the remark that if he had any choice in the selection of the color of the car he would prefer tan.
