

April 6, 1951

Mr. F. R. Zimmerman, Area Biologist
State of Wisconsin, Conservation Department
Game Management Division
Madison 2, Wisconsin

Dear Sir:

The rabbit repellent designated #96-A to which we called attention in our December, 1950 bulletin is available from Rodent Control Fund, South College Bldg., Amherst, Massachusetts at \$3.50 per gallon.

Another highly recommended control is Goodrite "No Nibbl", obtainable from the B. F. Goodrich Chemical Company, Cleveland, Ohio.

We are not prepared to make a statement at this time as to their comparative effectiveness.

Yours very truly,
The Morton Arboretum

E. L. Kammerer
