Miss Anne L. Stevenson
Jacksonville, Ill.

Dear Miss Stevenson;

If we had a surplus of evergreens we should be delighted to send you some. Evergreens of all kinds are particular favorites of Mr. Morton, the founder of this institution, so a place for planting is always found for plants we have. Perhaps you could get some very reasonable through the state forestry department.

We can as a rule give you any information about plants but seldom can furnish plants.

Yours very truly,
