Collection Contents

Calendar Year 2014 Staff Publications (46 records)

Seasonal activity, within-tree distribution, and ovipositional and feeding preference of the elm leafminer, *Fenusa ulmi* (Hymenoptera: Tenthredinidae)
Science and Conservation Project & Publication Summary
Center for Tree Science Strategy
Tree planting—Best management practice
Tree Tools: Tree Ordinances and your community
Common Diseases
Mulching
Non-Threatening Insects
Planting Trees
Threatening Diseases
Threatening Insects
Tree Care and Protection
Tree Tools: Volunteers & Your Community
Avoiding excessive soil over the roots of newly planted trees
Retrofitting Large Landscapes for Sustainability
Tree Selection and Planting
Tree Tools: Funding Tree Programs
Tree Tools: Tree Boards and Commissions
Tree Tools: Tree Inventories
Tree Tools: Tree Propagation
Tree Tools: Tree Risks
Tree Tools: Trees and Construction
Tree Tools: Trees and Stormwater
Tree Tools: Value of Trees
A framework phylogeny of the American oak clade based on sequenced RAD data
Beta diversity of urban floras among European and non-European cities
Composition, structure, and trajectories of Great Lakes coastal pine forests in relation to historical baselines and disturbance history
Effects of tree crown structure on dynamic properties of *Acer rubrum* L. 'Florida Flame'
Enhancing establishment of white oak and American hazelnut enrichment plants in a mesic forest using understory removal and group selection
Evaluating restoration baselines for historically fire-protected woodlands within a northeastern Illinois prairie peninsula landscape
Habitat associations and 150 years of compositional change in white pine-hemlock-hardwood forests based on resurvey of public land survey corners
Impact of branch reorientation on breaking stress in *Liriodendron tulipifera* L.
Karyotypic changes through dysploidy persist longer over evolutionary time than polyploid changes
Leaf-out times of temperate woody plants are related to phylogeny, deciduousness, growth habit and wood anatomy
The management of tree root systems in urban and suburban settings II: A review of strategies to mitigate human impacts
Nutlet micromorphology of *Carex* section *Rhomboidales* sensu Kükenthal (Cyperaceae) and its systematic implications
Native plant diversity increases herbivory to non-natives
Persistence of pine species in late-successional forests: evidence from habitat-related variation in stand age structure
Soil profile inversion in earthquake-induced liquefaction-affected soils and the potential effects on urban trees
The management of tree root systems in urban and suburban settings I: A review of soil influence on root growth
Vegetation Communities of a Coal Reclamation Site in Southeastern Ohio
The avifauna of Virua National Park, Roraima, reveals megadiversity in northern Amazonia
Genotyping-by-sequencing as a tool to infer phylogeny and ancestral hybridization: A case study in *Carex* (Cyperaceae)
White-tailed deer are a biotic filter during community assembly, reducing species and phylogenetic diversity
Leaf epidermal features of *Quercus* subgenus *Cyclobalanopsis* (Fagaceae) and their systematic significance
Historic Vegetation Maps
